— The Volleyball Brand

**We have always believed
that the volleyball movement
deserved more, that's why
ninesquared was born.**

Competitive prices

Despite the obsessive attention paid to the creation of each garment, our prices are surprisingly low and able to satisfy even the most limited budgets. This is also thanks to a model that sees us working directly with the final consumer. Without frills and intermediaries. Don't think about the price: it won't be a problem.

Custom design

Ninesquared offers the possibility of creating completely customized designs on many of its garments. The team of fashion designers is available to find the best solution for every need.

From volleyball players, to volleyball players

Ninesquared was born by volleyball players and is dedicated to volleyball players. We make garments and technical products with a high technological content, with a strong focus on quality and design.

From fashion to sport

We are born in the fashion industry and use these high standards for sportswear. The volleyball movement deserves more, ninesquared was born for this.

Delivery speed

Ninesquared knows what it means to manage a sports club and its problems. We are prepared to provide you with the best solutions to help you, starting with deliveries: fast, indeed, very fast!

Customer service

If you are one of our customers, we are here for you! If there is a problem we are here to solve it. Always.

Reduced order minimums

With us you can order a minimum of 10 pieces. Don't stock, we'll take care of it.

Discounts

Personalized discount programs. We want to work with you, give us the opportunity to surprise you.

Teamwear concept

Give Back

The commitment to improvement:

Ninesquared is committed every day to promoting and encouraging the further development of forms of volleyball that are increasingly compatible with nature and the environment. We are constantly working to make our sports world as aware and with as little impact as possible: the road is still long, but we believe we can achieve this ambitious and more necessary goal than ever.

Our garments are designed and created to last thanks to high quality materials that keep their technical characteristics intact. We create products starting from materials such as organic cotton, recycled polyester and tech fleece, an innovative and highly performing material of the latest generation.

We rely on partners who, like us, care about a more careful production conceived from a more conscious point of view.

Recycled Polyester

PLASTIC BECOMES

Packaging

0% WASTE
100% RECYCLABLE

Recyclable Organic Cotton

...IS BETTER FOR THE PLANET
...IS BETTER FOR PEOPLE

Our goal is zero waste, zero polluting materials, zero CO2 emissions to protect the future of volleyball.

Towards change, together as a team!

Size guide

(sizes in cm.)

How to measure

Using a tape measure, measure the circumferences in direct contact with your body

1. Chest

Measure around the fullest part of your chest

2. Waist

Measure the circumference of your waist at the height of your navel

3. Hips

Measure the circumference of the widest part of your hips

4. Height

Measure your height from the top of your head to the floor, maintaining an upright posture

5. Kneepads

Measure the circumference of your leg approximately 15cm below the center of the knee

6. Armsleeves

Measure the circumference of your biceps, wrist and lenght between them

Unisex	Height		Chest		Waist		Hips
